This document seemed to be very complex and maybe there could be an Executive Summary, a table of contents, and/or a version that shows the proposal on one page with commentary on a facing page? The current document makes it very hard to figure out what to comment on and what is a comment.

Thank you for the opportunity to review.

**Subject:** Model Rules

Hello everyone -

Attached below is the link to the PROPOSED model rules that the AGO has put together. We had planned to meet with you all to go over them and collect your comments, however, we are not going to be able to coordinate our schedules to do so. We have many office locations moving and no room and Greg and I have extreme schedules the rest of this month and could not get a day together. Sorry! However, we really want you all to have an opportunity to comment on the proposed rules. Please have your comments to us prior to close of business on December 21, 2005. Those comments should be sent to one of the following: [publicrecords@atg.wa.gov](mailto:publicrecords@atg.wa.gov) or [grego@atg.wa.gov](mailto:grego@atg.wa.gov). The first one is most likely the best.

If you have problems accessing the sight, let me or Greg know. Thank you.
